

## BitcoinSuisse Tutorial to participate on the AidCoin ICO starting January 16th, 2018 12:00 CET

In this tutorial, you'll learn how to join the ICO through BitcoinSuisse. Please note that the following process is just for those who have already been approved. If you haven't finished the registration process, you won't be able to proceed with the following steps.

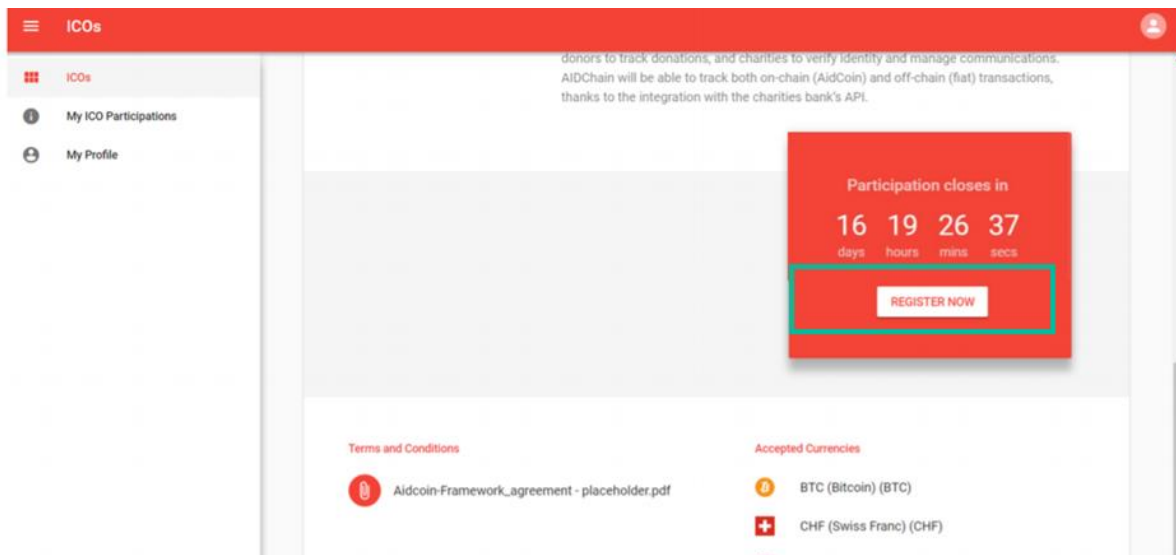

Once you've logged in, you will see AidCoin among the ongoing ICOs.

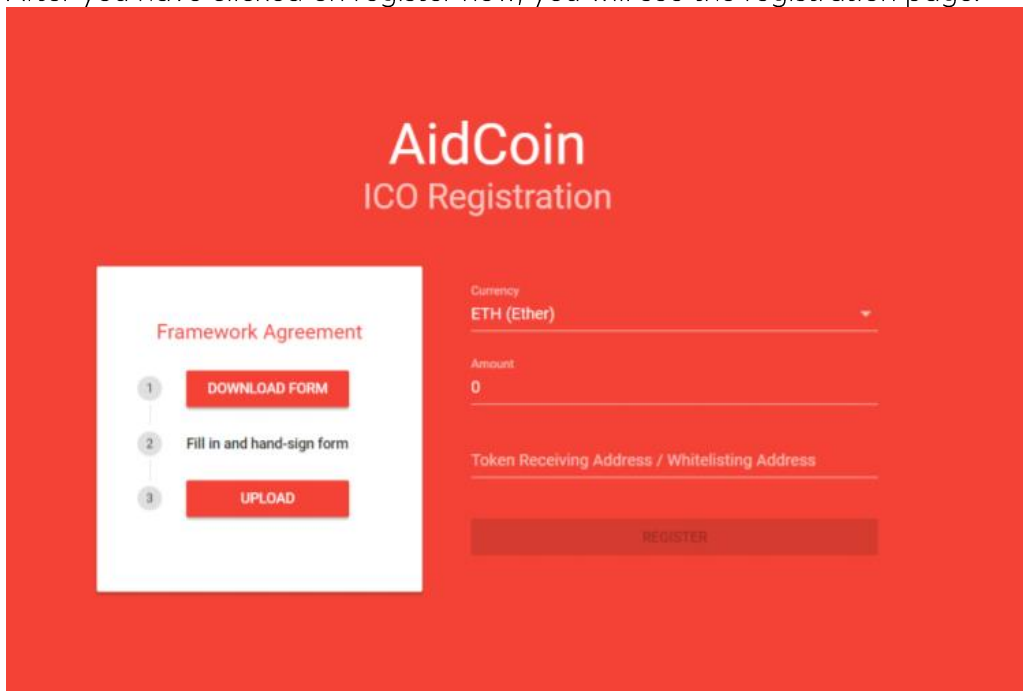

If you click on it, you will see our full page, with the description of the project, basic information and the time left for the ICO.

Scroll down to the timer and click on REGISTER NOW

After you have clicked on register now, you will see the registration page:

The framework agreement will be available before registration starts. That ensures that people can download it, print and sign by hand, and be ready for the ICO to open. Once it opens, the "register" button will be activated, and clients will be able to upload the agreement, and continue the registration.

You will also need to select the currency you intend to use, the amount you want to send and fill the Token Receiving Address field with the ETH address where you want to receive the AID tokens.

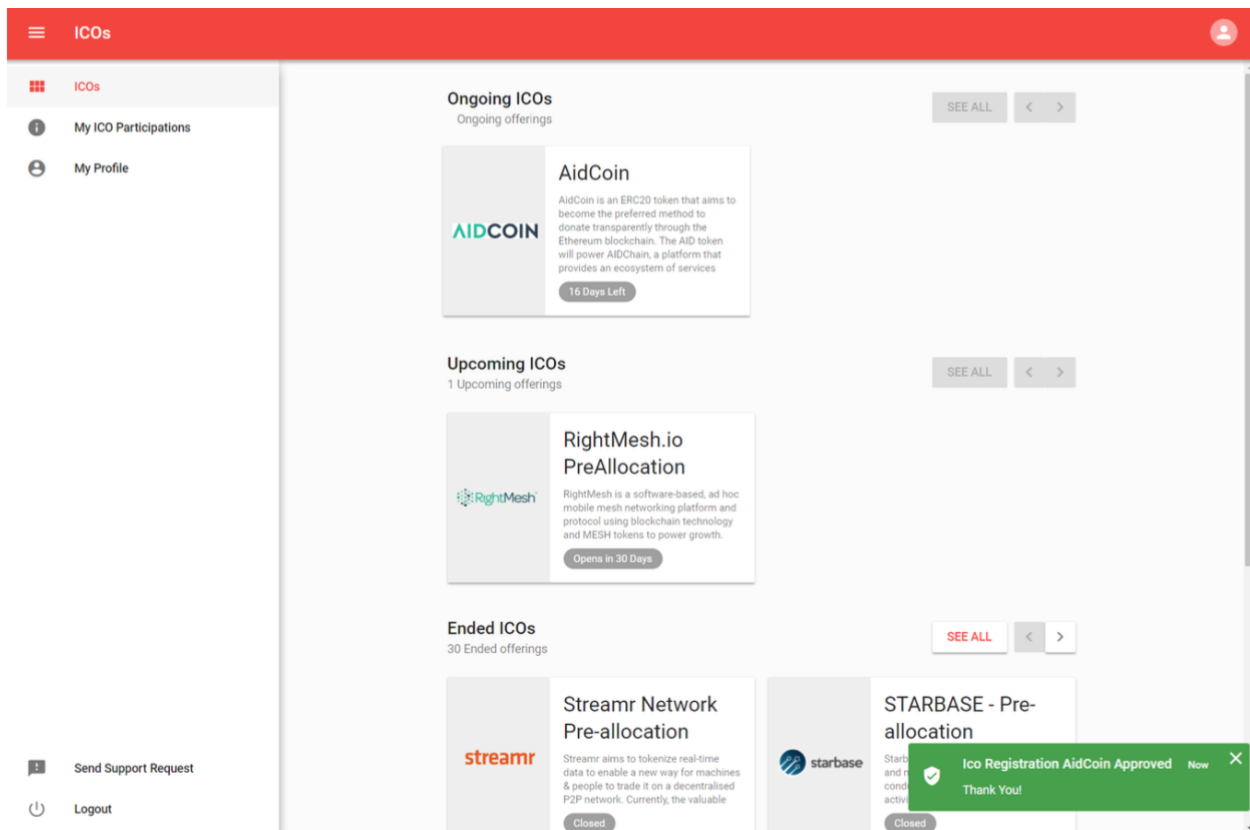

IMPORTANT: please use as tokens receiving address any Ethereum wallet of which you fully own and control the private keys. A list of recommended wallets can be found at <https://www.aidcoin.co/faq>

DO NOT enter an address from an exchange wallet.

Once you have all set, click **REGISTER**

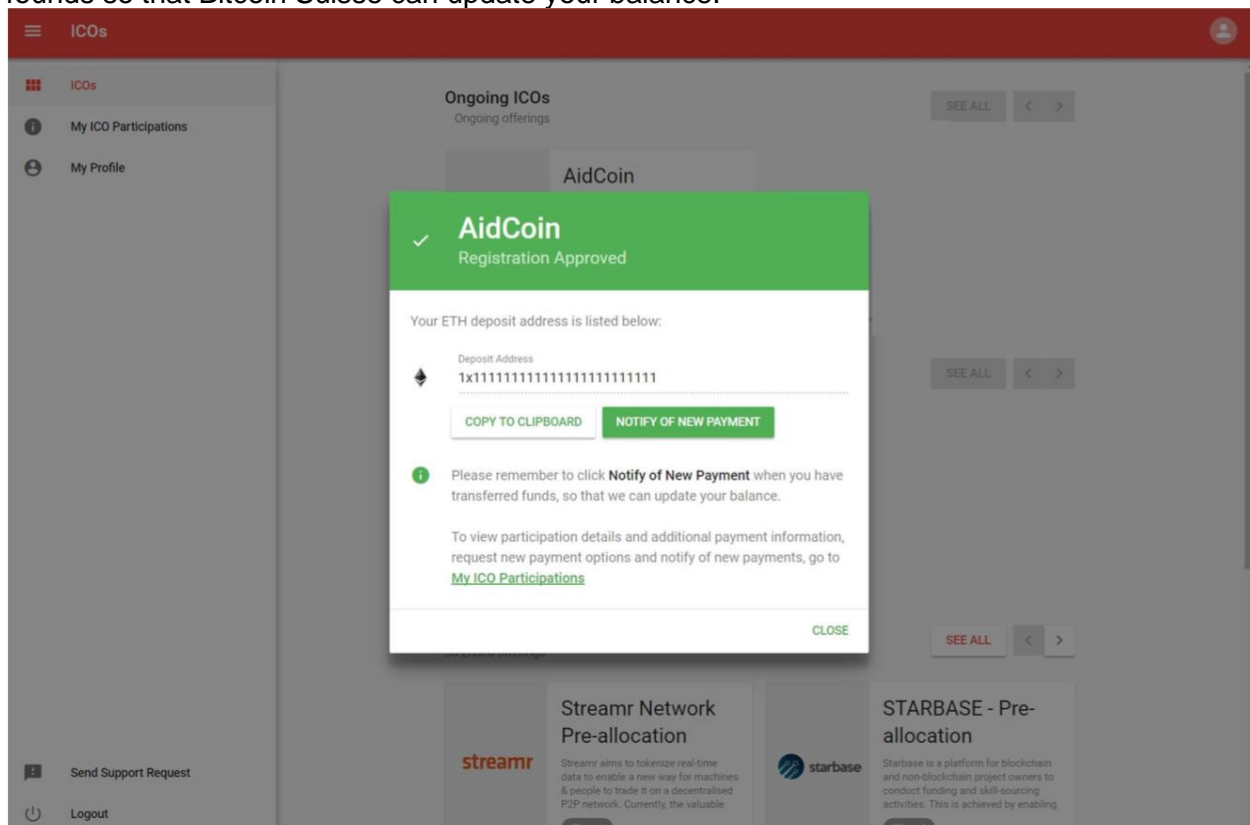

The image shows a web browser window displaying the AidCoin ICO registration page. The page has a dark blue header with the AidCoin logo and navigation links. The main content area is white and features a 'Framework Agreement' section with a green checkmark icon and a 'REGISTER' button. Below the registration form, there is a countdown timer showing 16 days, 19 hours, 53 minutes, and 9 seconds remaining until participation closes.

You will then need to wait until your registration is approved

Click on the green approval box and copy the ETH deposit address. You must send ETH to this address to participate in the ICO.

**IMPORTANT:** Remember to click on **Notify of New Payment** when you have transferred the funds so that Bitcoin Suisse can update your balance.

Once your payment is accepted, you will see it one the green bottom right box.
